

## **Prof. Dr. Rudolf M. Huber**

(DZL Site CPC – Munich)

Rudolf M. Huber, Professor of Medicine at Ludwig-Maximilians-University Munich, is past head of the Department of Respiratory Medicine and Thoracic Oncology at the University hospitals – campus Innenstadt. He chairs the Thoracic Oncology Centre Munich and is member of CPC-M and DZL. His work is focused on Thoracic Oncology.

He is active in all relevant national and international societies, active member/initiator of international task forces and (past) board member of the German Respiratory Society, European Respiratory Society, AIO of the German Cancer Society, Regent of IASLC for Europe and Governor for Germany of ACCP.

Apart from numerous clinical trials translational work is about reactions of the bronchial wall and stroma-tumour interactions, immune infiltrates and cytokine profiles of tumour and corresponding blood as well as reactions to targeted and combined treatment modalities using complex (organ) co-cultures systems. As life-long researcher and teacher he would be happy to mentor younger DZL members.
